Chase Secure CheckingSM now gives you that “just paid” feeling up to two business days sooner with early direct deposit

Now with early direct deposit, we credit your eligible direct deposit transaction up to two business days early. The timing of when these transactions will be credited is based on when the payer submits the information to us. This could vary and you may not receive your funds early. Eligible transactions are certain ACH credit transactions such as payroll, government benefits or similar transactions.

To be eligible, you must set up direct deposit to your Chase Secure Checking account. If you've already set up direct deposit, there's nothing more you need to do. If you haven't, you can go to chase.com/secure-deposit for information on how to set it up.

Please call the number on this statement if you have any questions. We accept operator relay calls.
